THE BASEBALL OBSERVER SHOWCASE

Houston Mavericks at Las Vegas Gamblers - August 19, 1981

Complete pregame scouting and journalism desk

Game #1450 | Gamblers Park | Scheduled time: 7:05 p.m. (time zone unencoded)

Performance cutoff: all completed ABL regular-season games through August 18, 1981.

A complete reading edition of the accompanying Markdown desk. All reporting, player cards, tables, limitations and source references are retained. Official starters, lineups, game conditions and availability remain subject to the pre-first-pitch update checklist.

BASEBALL OBSERVER SHOWCASE STATUS: PREGAME DESK READY
FINAL VERDICT: VERIFIED FOR ERNIE BEWELL PRE-GAME USE

Contents

A. Exact game identity and verified venue 3
B. Reporting cutoff and source boundary 4
C. One-page game significance briefing 5
D. Houston Mavericks - season and recent form 5

F. ABC pennant and wild-card stakes 13
G. Head-to-head baseball and history 15
H. Complete key-player cards 18
I. Starting-pitcher evidence and uncertainty 65
J. Pitcher arsenal profiles 68
K. Batter profiles and the pitcher-batter chess match 69
L. Bullpen workload and options 73
M. Managerial decisions to watch 75
N. Active-roster and injury status 76
O. Recent trade acquisitions and actual receiving-club usage 81
P. Ballpark characteristics - Gamblers Park only 82
Q. Conference Challenge context and the finale 83
R. Relevant 1972-1980 history and Ernie’s ten-season perspective 85
S. Five big pregame questions 87
T. Verified numbers and factual details - ON-AIR FACT BOARD 88
U. Potential opening approaches - concepts, not article prose 88
V. Pregame article and broadcast discovery board 89
W. Unknowns and required updates 91
X. Source traceability and calculation contract 92
Y. Final independent verification certificate 96

Standalone pregame scouting and journalism desk. Cutoff: all completed ABL regular-season games through August 18. Target game #1450 remains unplayed. This is evidence for Ernie Bewell and the production desk, not a finished article, broadcast script or game recap.

Evidence keys: DIRECT VERIFIED FACT = matched exported record or identified historical message; COMPUTED VERIFIED FACT = arithmetic from date- and game-status-filtered records; SUPPORTED BASEBALL INTERPRETATION = a bounded scouting or journalism question; UNKNOWN / UNVERIFIED = not established. Statistical tables are computed facts unless labeled as raw ratings, historical archive extracts or snapshot flags. No August 19 performance is included.

A. Exact game identity and verified venue

Field	Verified identity
Scheduled game	1450 - league 200, regular season game_type=0
Date	Wednesday, August 19, 1981
Visitor	Houston Mavericks, team #23, ABC Central
Home	Las Vegas Gamblers, team #17, ABC West
Park	Gamblers Park, park #17, Las Vegas, Nevada; capacity 20,900
Time	7:05 p.m. (1905 as exported); time zone is not encoded
Status	Scheduled and unplayed: played=0, innings=0; zero result/attendance fields are placeholders
Series	Third game of the August 17-19 Houston-at-Las-Vegas set; tied 1-1
Production-use series key	WD20-HOU-LV; Weekday 20 Series, numbering continued from the established Weekday 17 anchor
Conference classification	Same conference, different divisions; not interconference
Finale designation	Final game of this series and a scheduled final-day game of the conference phase. No special competitive title or trophy established.
Showcase designation	Assigned by the current Showrunner/Codex assignment; no separate earlier August 19 repository production designation or selection rationale located
Starting pitchers	UNCONFIRMED - starter0=0 and starter1=0

Direction check: PASS. The requested Houston-at-Las-Vegas orientation matches the authoritative schedule. No venue reversal is needed. Houston Stadium is not tonight's scheduled venue. The fixture itself is verified; "Baseball Observer Showcase" is a production assignment, not a special OOTP game category.

A live HTML file named game_box_1450.html was rejected: its title identifies Pittsburgh at Seattle on August 20, 1980. The live league scoreboard inspected is dated August 1, 1981. Reused game IDs and stale HTML cannot establish this game's starters, lineup, weather or result. Those files were not admitted as current-game evidence.

B. Reporting cutoff and source boundary

The authoritative promoted directory is C:\sbv_repo\abl_csv_repo\csv\ootp_csv, containing 72 immediate CSVs. leagues.csv gives season 1981, league date August 19. There are 1,438 completed league-200 regular-season games through August 18, and all 12 games on August 18 are complete. All 12 August 19 games are unplayed. The factual boundary is completion status plus game date, not a file name or a current cumulative field.

All performance is reconstructed from played=1 games through August 18 and actual major-league participants. Current player names, handedness and ratings are export-snapshot attributes. Active-roster and injury flags are from the August 19 league-date snapshot; they are not certified historical August 18 rosters. Transaction and appearance dates control historical club attribution.

Important exclusion: game #1113 is incomplete, played=0, and currently dated August 20. Its partial player statistics occur in cumulative files. Alex Ramirez #4753 has 403 PA/353 AB in his cumulative Houston row, but 401 PA/351 AB in completed games through August 18; his two PA/two AB in #1113 explain the difference. Those incomplete-game statistics are excluded from every season line, handedness split and BvP sample here. Individual matchup totals without a dated game join are also rejected.

Last seven completed calendar days means August 12-18, not the last seven team games. Last three means August 16-18. Challenges means July 27-August 18. Post-All-Star means completed regular-season games after the July 14 All-Star date; the first such completed date is July 16. Recent numerical claims retain their sample sizes. A zero-PA row indicates no recorded opportunity; its displayed .000 rates are formatting placeholders, not measured batting performance.

C. One-page game significance briefing

Houston arrives 72-47, leading the ABC Central by 10.5 games. Las Vegas is 68-52, leading the ABC West by two over Denver and four over Seattle. Both are division leaders; neither is currently being placed in the wild-card table. Houston has 43 games remaining to a 162-game schedule and Las Vegas 42.

The clubs reached this finale by different routes. Houston went 15-5 during the challenges and outscored opponents 97-62. Las Vegas went 10-10 with a 100-87 run advantage, lost the lead briefly to Seattle, then closed August 10-18 at 6-2. Houston also went 6-2 over that closing interval. The August 17 opener was a 4-3 Las Vegas win; Houston answered August 18, 7-3, behind Jerry Wilson's complete game. Tonight decides the series, not a special Challenge championship.

Houston's starters have greatly reduced the recent bullpen burden: only 5 2/3 relief innings August 12-18 and 1 2/3 August 16-18. Las Vegas used 13 1/3 and eight, respectively. Souza worked 3 2/3 on August 18. These are workload facts, not medical clearance or a prediction of who will pitch.

The most strongly supported starter possibilities are LHP Nate Higgins for Houston and RHP Bobby Rodriguez for Las Vegas: each last started August 14, has four full intervening calendar days, and occupies starter_0 in the undated rotation export. Neither is confirmed for #1450. Their different handedness, repertoires and performance give the chess-match section a conditional framework that must be updated when starters are announced.

Houston leads the completed 1981 head-to-head 8-3 and won their verified 1980 Conference Championship Series 4-1. That supplies baseball history, not evidence of revenge or a forecast. Cincinnati at Denver is the parallel scoreboard to watch: its result affects Houston's Central margin and Las Vegas's West margin in opposite ways.

Organization snapshot: field manager Carlos Sanchez #238; GM Larry Bell #219; owner Xavier Ferguson #926. Assignments identify current personnel, not tenure in a prior championship season.

SUPPORTED BASEBALL INTERPRETATION: Houston’s 15-5 window combines stronger run prevention than Las Vegas with enough offense to sustain separation. Its last seven-day offense is .758 OPS, so the case does not require describing the lineup as unstoppable. Higgins and Scott Szell supply the largest existing receiving-club workloads; the July acquisitions must be evaluated by their actual starts and relief appearances, not the team’s record alone. Houston’s road record is 29-27, a different context from its 43-20 home record.

Organization snapshot: field manager Matt Petrie #218; GM Roberto Choto #149; owner Terry Vinson #873. Assignments identify current personnel, not tenure in a prior championship season.

SUPPORTED BASEBALL INTERPRETATION: Las Vegas's last seven-day .818 OPS and 5-2 record show an offensive recovery that the whole-window 10-10 record conceals. The starters and bullpen have absorbed more recent traffic than Houston's. Bobby Rodriguez is the leading supported possibility, but Miguel Fernandez's 12 actual starts also establish him as a real rotation option. The old arsenal report's Fernando Bennett starter listing is not used as the current rotation. Eddie Rodriguez's injury flag is a live lineup question.

F. ABC pennant and wild-card stakes

ABC East

Club / ID	W-L	GP / PCT	Place / GB	Games left to 162
Boston Patriots #20	61-59	120 / .508	1 / 0	42
Philadelphia Fury #22	56-64	120 / .467	2 / 5	42
New York Aces #15	53-67	120 / .442	3 / 8	42
Pittsburgh Express #21	53-67	120 / .442	3 / 8	42

ABC Central

Club / ID	W-L	GP / PCT	Place / GB	Games left to 162
Houston Mavericks #23	72-47	119 / .605	1 / 0	43
Cincinnati Cougars #14	62-58	120 / .517	2 / 10.5	42

Club / ID	W-L	GP / PCT	Place / GB	Games left to 162
Nashville Blues #16	58-62	120 / .483	3 / 14.5	42
St. Louis Stallions #19	57-62	119 / .479	4 / 15	43

ABC West

Club / ID	W-L	GP / PCT	Place / GB	Games left to 162
Las Vegas Gamblers #17	68-52	120 / .567	1 / 0	42
Denver Rocketeers #13	66-54	120 / .550	2 / 2	42
Seattle Comets #24	64-56	120 / .533	3 / 4	42
Portland Lumberjacks #18	49-71	120 / .408	4 / 19	42

ABC wild card - sole division leaders excluded

Club	W-L	Provisional WC place	WC GB
Denver Rocketeers	66-54	1	0
Seattle Comets	64-56	2	2
Cincinnati Cougars	62-58	3	4
Nashville Blues	58-62	4	8
St. Louis Stallions	57-62	5	8.5
Philadelphia Fury	56-64	6	10
New York Aces	53-67	7	13
Pittsburgh Express	53-67	7	13
Portland Lumberjacks	49-71	9	17

Houston's nearest Central pursuer is Cincinnati at 62-58, 10.5 back. Las Vegas leads Denver 66-54 by two and Seattle 64-56 by four. Denver leads Seattle by two for the one ABC wild card. Boston leads the East 61-59, five ahead of Philadelphia. These are provisional standings; no clinch, elimination, final seed or tiebreak winner is asserted.

The Cincinnati-at-Denver connection - conditional arithmetic, not results

Cincinnati at Denver is game #1449, also unplayed August 19. Cincinnati is Houston's nearest division pursuer; Denver is Las Vegas's. The four combinations below show the margins if both games finish with ordinary wins/losses. They are hypothetical scenarios, not reported outcomes.

Hypothetical #1450 outcome	Hypothetical #1449 outcome	Houston lead over Cincinnati	Las Vegas lead over Denver
Houston wins	Denver wins	11.5 games	1 game
Houston wins	Cincinnati wins	10.5 games	2 games
Las Vegas wins	Denver wins	10.5 games	2 games
Las Vegas wins	Cincinnati wins	9.5 games	3 games

Because the smallest resulting lead is 9.5 for Houston and one for Las Vegas, neither can lose sole division leadership through these ordinary single-game outcomes. That is a narrow daily-arithmetic statement, not a postseason clinch. Seattle hosts Pittsburgh in #1452; its result also changes the West and wild-card margins. The Showcase has consequences beyond its two participants without being mathematically decisive for a berth.

The Grand Tournament of Champions takes three division winners and one wild card per conference. Beginning in 1981, same-division clubs cannot meet in the DCS: if seeds 1 and 4 share a division, 4 plays 2 and 1 plays 3. This changes matchups, not qualification. No final bracket or probability is supplied.

G. Head-to-head baseball and history

Houston leads completed 1981 meetings **8-3**, with a **45-27** run advantage. The challenges portion is **1-1**, 10-7 in Houston runs. August 19 is the twelfth and last currently scheduled regular-season meeting, the third game of this set. There is no later scheduled Houston-Las Vegas game in the 1981 regular-season export.

1981 set	Houston result	Game IDs
April 13-15 at Houston	won 2-1	78, 90, 102
June 5-7 at Las Vegas	won 3-0	658, 670, 682

1981 set	Houston result	Game IDs
July 10-12 at Houston	won 2-1	1044, 1056, 1068
August 17-19 at Las Vegas	1-1 through August 18; finale unplayed	1426, 1438; scheduled 1450

The June 5 and July 10 meetings both matched Higgins and Bobby Rodriguez as actual starters (#658, #1044). Houston won both games, but a team result is not proof that the same pitcher matchup will repeat or that any hitter owns a sustainable advantage. The current series' first two games involved different starters: Jenkins/Herrera and Wilson/Cole. Houston's August 18 complete game kept its bullpen unused that night.

Verified 1980 postseason meeting

Primary OOTP message **#18692, October 22, 1980**, explicitly records Houston eliminating Las Vegas **4-1 in the Conference Championship Series**, winning the final game **2-0 at Houston Stadium**, and advancing to meet Detroit. Its box-score reference is **#9388**. Message **#18673, October 20**, independently identifies the ongoing Houston-Las Vegas series as the other conference final while Detroit advanced; its native message ID and dated body were independently checked. No generated interview quotations from those messages are reproduced.

Historical archive extract, 1979: 12 Houston-Las Vegas meetings dated April-September, Houston 6-6. March exhibitions in the archive are excluded. These are explicitly bounded date extracts, not a newly certified all-time regular-season total: the archive games table has no game_type column and its game keys are synthetic, not native OOTP game IDs. They provide context only; current-game scouting does not depend on them.

Historical archive extract, 1980: 12 Houston-Las Vegas meetings dated April-September, Houston 5-7. March exhibitions in the archive are excluded. These are explicitly bounded date extracts, not a newly certified all-time regular-season total: the archive games table has no game_type column and its game keys are synthetic, not native OOTP game IDs. They provide context only; current-game scouting does not depend on them.

1980 date	Archival game key	Visitor-home score
1980-10-17	1980_1017_11	Houston 5-0 Las Vegas
1980-10-18	1980_1018_7	Houston 5-3 Las Vegas
1980-10-20	1980_1020_11	Las Vegas 6-5 Houston
1980-10-21	1980_1021_7	Las Vegas 2-3 Houston
1980-10-22	1980_1022_7	Las Vegas 0-2 Houston

The five archived October games agree with the primary message's 4-1 series result and 2-0 finale. Other historical playoff meetings are not asserted. The clubs' only shared tournament season in the 1972-80 qualification flags is 1980, so no earlier postseason confrontation is established by those histories. This is substantial shared baseball history without an invented rivalry, bad blood or present-day motive.

H. Complete key-player cards

Cards cover every player flagged active for the two clubs in the current league-date snapshot, without treating that snapshot as a certified August 18 roster. A pitcher's season-all-clubs line is kept distinct from his receiving-club line. Handedness comes from players.csv; 1=R, 2=L, 3=S is corroborated by the repository's profile parsers and explicit RHP/LHP game-log labels. Batting position codes identify listed positions, not official August 19 assignments. None of the following cards is a confirmed batting order.

Houston Mavericks - position-player cards

Jesus Vasquez #4495 - age 28, bats L; listed RF

Challenge at current club	2/0	0-0	4 2/3	13.50/2.14	5/3/1	1/0/0
Aug 12-18 at current club	1/0	0-0	3 1/3	8.10/1.50	3/1/1	1/0/0

Observed role: 0 club starts in 2 appearances; last club appearance 1981-08-16, 3 elapsed calendar days / 2 full intervening dates before August 19. No availability or specific August 19 role is inferred.

Recent appearance keys: #1415. **Roster flags:** active=1, DL=0, current injury flag=0. Flags are snapshot facts, not clearance. Pitch types and raw ratings are in Section J.

I. Starting-pitcher evidence and uncertainty

No starting pitcher is confirmed for game #1450. The schedule has zero in both starter fields. projected_starting_pitchers.csv has rotation slots but no game ID or date key. The stale/mismatched HTML identified in Section A supplies no acceptable announcement. The most supported possibilities below are evidence-based candidates, not probabilities or assignments.

Houston Mavericks rotation evidence

Slot / pitcher / ID	Last start / ID	Last appearance	Elapsed / full intervening dates	Last start IP / ER / pitches	Status for #1450
0: Nate Higgins #2314	1981-08-14 #1389	1981-08-14	5 / 4	7 2/3 / 0 / 124	POSSIBLE; strongest rest/slot evidence
1: Scott Szell #2383	1981-08-15 #1401	1981-08-15	4 / 3	8 / 3 / 85	POSSIBLE alternative; less rest than slot 0
2: Kerry Darling #679	1981-08-16 #1413	1981-08-16	3 / 2	8 / 5 / 122	recently used; no assignment or availability inferred
3: Chris Jenkins #6159	1981-08-17 #1426	1981-08-17	2 / 1	8 / 2 / 103	recently used; no assignment or availability inferred
4: Jerry Wilson #681	1981-08-18 #1438	1981-08-18	1 / 0	9 / 2 / 111	recently used; no assignment or availability inferred

The observed last-five-start sequence through August 18 is 1981-08-14: Nate Higgins #2314, 1981-08-15: Scott Szell #2383, 1981-08-16: Kerry Darling #679, 1981-08-17: Chris Jenkins #6159, 1981-08-18: Jerry Wilson #681. This sequence supports a question, not a confirmed next turn.

Las Vegas Gamblers rotation evidence

Slot / pitcher / ID	Last start / ID	Last appearance	Elapsed / full intervening dates	Last start IP / ER / pitches	Status for #1450
0: Bobby Rodriguez #8003	1981-08-14 #1391	1981-08-14	5 / 4	8 / 4 / 130	POSSIBLE; strongest rest/slot evidence
1: Miguel Fernandez #6192	1981-08-15 #1403	1981-08-15	4 / 3	7 1/3 / 3 / 100	POSSIBLE alternative; less rest than slot 0

Slot / pitcher / ID	Last start / ID	Last appearance	Elapsed / full intervening dates	Last start IP / ER / pitches	Status for #1450
2: Jaylen Taylor #5417	1981-08-16 #1415	1981-08-16	3 / 2	5 2/3 / 0 / 101	recently used; no assignment or availability inferred
3: Oscar Herrera #8695	1981-08-17 #1426	1981-08-17	2 / 1	8 / 3 / 129	recently used; no assignment or availability inferred
4: Rogelio Cole #6052	1981-08-18 #1438	1981-08-18	1 / 0	5 1/3 / 5 / 97	recently used; no assignment or availability inferred

The observed last-five-start sequence through August 18 is 1981-08-14: Bobby Rodriguez #8003, 1981-08-15: Miguel Fernandez #6192, 1981-08-16: Jaylen Taylor #5417, 1981-08-17: Oscar Herrera #8695, 1981-08-18: Rogelio Cole #6052. This sequence supports a question, not a confirmed next turn.

POSSIBLE: Nate Higgins #2314, Houston Mavericks

Age 31, throws L. Season all clubs: 25 G/25 GS, 14-5, 197 2/3 IP, 2.05 ERA, 0.98 WHIP, 138 K/58 BB, 9 HR allowed; 0 SV/0 BS/0 HLD. K/9 6.28, BB/9 2.64, HR/9 0.41. The complete card above separates receiving-club and challenge results.

Receiving-club venue split	G / GS	IP	ERA / WHIP	K / BB
Home	13/13	102 2/3	2.28/1.02	82/35
Road	12/12	95	1.80/0.93	56/23

Actual 1981 meetings with this opponent: #658 1981-06-05, team HOU: 9 IP/1 ER, 2 K/1 BB; #1044 1981-07-10, team HOU: 8 IP/2 ER, 9 K/2 BB. Opponent-specific samples are not projected as an advantage. Last starts, workloads and role uncertainty remain as shown above.

POSSIBLE: Scott Szell #2383, Houston Mavericks

Age 30, throws R. Season all clubs: 24 G/24 GS, 13-5, 187 IP, 3.22 ERA, 1.02 WHIP, 138 K/46 BB, 12 HR allowed; 0 SV/0 BS/0 HLD. K/9 6.64, BB/9 2.21, HR/9 0.58. The complete card above separates receiving-club and challenge results.

Receiving-club venue split	G / GS	IP	ERA / WHIP	K / BB
Home	13/13	100	3.51/1.13	80/24
Road	11/11	87	2.90/0.90	58/22

Actual 1981 meetings with this opponent: #682 1981-06-07, team HOU: 8 IP/1 ER, 7 K/3 BB. Opponent-specific samples are not projected as an advantage. Last starts, workloads and role uncertainty remain as shown above.

POSSIBLE: Bobby Rodriguez #8003, Las Vegas Gamblers

Age 26, throws R. Season all clubs: 24 G/24 GS, 12-6, 177 IP, 3.05 ERA, 1.35 WHIP, 162 K/58 BB, 8 HR allowed; 0 SV/0 BS/0 HLD. K/9 8.24, BB/9 2.95, HR/9 0.41. The complete card above separates receiving-club and challenge results.

Receiving-club venue split	G / GS	IP	ERA / WHIP	K / BB
Home	16/16	114 2/3	2.83/1.33	105/40
Road	8/8	62 1/3	3.47/1.38	57/18

Actual 1981 meetings with this opponent: #658 1981-06-05, team LV: 0 2/3 IP/0 ER, 0 K/1 BB; #1044 1981-07-10, team LV: 7 IP/4 ER, 6 K/6 BB. Opponent-specific samples are not projected as an advantage. Last starts, workloads and role uncertainty remain as shown above.

POSSIBLE: Miguel Fernandez #6192, Las Vegas Gamblers

Age 27, throws R. Season all clubs: 20 G/12 GS, 4-6, 82 2/3 IP, 3.70 ERA, 1.48 WHIP, 54 K/48 BB, 2 HR allowed; 0 SV/0 BS/1 HLD. K/9 5.88, BB/9 5.23, HR/9 0.22. The complete card above separates receiving-club and challenge results.

Receiving-club venue split	G / GS	IP	ERA / WHIP	K / BB
Home	7/3	21 2/3	5.40/1.57	16/13
Road	13/9	61	3.10/1.44	38/35

Actual 1981 meetings with this opponent: #1056 1981-07-11, team LV: 7 IP/1 ER, 6 K/3 BB. Opponent-specific samples are not projected as an advantage. Last starts, workloads and role uncertainty remain as shown above.

Higgins's 14-5, 2.05 ERA and 0.98 WHIP across 197 2/3 innings make run prevention and traffic the first scouting question. Bobby Rodriguez's 162 strikeouts in 177 innings and 3.05 ERA make his ability to miss Houston bats another. Szell's 3.22 ERA/1.02 WHIP and Fernandez's mixed 12-start/20-appearance record provide credible alternatives with different samples. None of these comparisons names the official matchup.

J. Pitcher arsenal profiles

These profiles are drawn directly from the current players_pitching.csv named pitch fields, not the older generated arsenal report. Nonzero fields establish that the export rates the named pitch. Raw values are preserved without claiming a decoded scale, scouting grade, usage frequency, physical break, pitch sequence or mph. Velocity is an undecoded export code; it is not converted to a speed range. Current rows can establish a rated repertoire, not exactly what a pitcher will throw tonight.

Pitcher / club / ID	Nonzero named pitch fields and raw ratings	Raw movement / control / stamina	Raw velocity code
Mike McQuaid / HOU / #416	fastball=35, slider=45, changeup=40	65/75/25	3
Tony Chavarria / HOU / #506	fastball=45, curveball=50	50/65/25	11
Kerry Darling / HOU / #679	slider=45, changeup=60, sinker=50	50/60/70	7
Jerry Wilson / HOU / #681	fastball=45, slider=40, curveball=35, forkball=40, changeup=45	50/45/70	12
Ricky Bautista / HOU / #1990	fastball=45, slider=45, changeup=50, splitter=60	50/45/60	9
Nate Higgins / HOU / #2314	fastball=45, changeup=60, cutter=55	50/55/55	9
Scott Szell / HOU / #2383	fastball=45, slider=50, changeup=75, sinker=55	55/60/55	9
Jeff Mitchell / HOU / #2790	curveball=45, changeup=55, sinker=50	45/50/65	8
Alvaro Marrero / HOU / #4486	fastball=65, splitter=30, cutter=45	50/50/35	15
Agustin Tapia / HOU / #4705	fastball=45, slider=50	50/45/55	7
Chris Jenkins / HOU / #6159	fastball=35, curveball=60, splitter=55	45/55/50	3
Kyle Marks / LV / #521	fastball=40, slider=45	45/70/70	8
Bill Hall / LV / #535	slider=45, changeup=25, splitter=50, cutter=45, knucklecurve=20	45/45/40	10
Fred O'Connell / LV / #813	forkball=30, changeup=45, sinker=55, splitter=35	55/50/30	11
Nate Souza / LV / #1688	slider=45, curveball=30, changeup=65, sinker=50	50/45/50	7
Jonathan Patterson / LV / #3978	fastball=35, slider=40, splitter=50	45/75/70	4

Pitcher / club / ID	Nonzero named pitch fields and raw ratings	Raw movement / control / stamina	Raw velocity code
Jaylen Taylor / LV / #5417	fastball=45, curveball=60, changeup=50	60/45/55	10
Rogelio Cole / LV / #6052	slider=70, splitter=80, cutter=40	60/40/50	13
Miguel Fernandez / LV / #6192	fastball=50, curveball=70, changeup=65	50/35/55	10
Bobby Rodriguez / LV / #8003	fastball=45, sinker=50, circlechange=80, knucklecurve=70	60/50/70	8
Oscar Herrera / LV / #8695	changeup=35, sinker=50, knuckleball=85	70/30/70	4
Derrek Sanders / LV / #8713	curveball=75, changeup=30, cutter=60	45/50/50	9

For the primary possible pair, Higgins has rated fastball/changeup/cutter fields, while Bobby Rodriguez has fastball/sinker/circlechange/knucklecurve fields. Szell adds fastball/slider/changeup/sinker fields; Fernandez has fastball/curveball/changeup. **SUPPORTED BASEBALL INTERPRETATION:** those are different sets of timing and movement questions to observe. The export does not establish a favored count, a planned sequence or that a numerical rating will produce a particular result.

K. Batter profiles and the pitcher-batter chess match

Handedness splits here are **actual completed-PA outcomes**, not raw vs-L/vs-R scouting ratings. Each PA is joined to its completed game and opposing pitcher ID, then to that pitcher's throwing hand. Result-code meaning was validated against every completed player-game batting row: 1=K, 2=BB, 6=single, 7=double, 8=triple, 9=HR, 10=HBP, 11=CI; code 4 with sac=1 supplies SH, code 5 with sac=1 supplies SF; BB sac=1 supplies IBB. Other 4/5 rows are counted as non-hit AB without inventing a batted-ball subtype. All PA/AB/H/extra-base-hit/BB/K/HBP/SH/SF/CI/IBB totals reconcile. Switch hitters remain S in identity; the split is by pitcher hand, not an assumed recorded batting stance.

1. The patient run producer against a strikeout arm

Conditional confrontation: Bobby Rodriguez #8003 (R) against Warren Ufena #5828 (bats L). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 3.05 ERA/1.35 WHIP, 8.24 K/9, 2.95 BB/9, 0.41 HR/9; rated repertoire fastball, sinker, circlechange, knucklecurve.

Hitter brings: current-club season 457 PA; .273/.414/.431, .845 OPS; 99 H, 11 HR, 62 R, 60 RBI, 68 BB/55 K, 9 SB/7 CS; challenge 84 PA; .284/.405/.552, .957 OPS; 19 H, 5 HR, 17 R, 14 RBI, 13 BB/7 K, 0 SB/1 CS; August 12-18 22 PA; .412/.455/.941, 1.396 OPS; 7 H, 2 HR, 6 R, 4 RBI, 3 BB/2 K, 0 SB/0 CS. Against R pitching: 364 PA; .287/.434/.472, .906 OPS; 81 H, 11 HR, 53 R, 52 RBI, 59 BB/43 K, 0 SB/0 CS. 4 starts in last 5 team games; observed start-position codes LF; most frequent batting spot(s) 3.

Actual BvP sample through August 18: 4 PA, 4 AB, 2 H, 0 HR, 0 BB, 0 K; games #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Ufena has 59 walks against right-handed pitching in 364 PA, while Rodriguez has 58 walks and 162 strikeouts in 177 innings. The useful contest is whether Houston gets a patient on-base contributor or whether Rodriguez converts those encounters into strikeouts. His rated circlechange and knucklecurve give the desk specific pitches to identify in the actual sequence. **The game must answer:** Record balls, strikes, walks and contact in Ufena's plate appearances; distinguish which named pitches actually appear from the repertoire merely rated in the export. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

2. The switch-hitting catcher and the extra-base-hit question

Conditional confrontation: Bobby Rodriguez #8003 (R) against Alex Ramirez #4753 (bats S). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 3.05 ERA/1.35 WHIP, 8.24 K/9, 2.95 BB/9, 0.41 HR/9; rated repertoire fastball, sinker, circlechange, knucklecurve.

Hitter brings: current-club season 401 PA; .279/.364/.427, .791 OPS; 98 H, 11 HR, 51 R, 43 RBI, 45 BB/56 K, 0 SB/1 CS; challenge 67 PA; .316/.418/.509, .927 OPS; 18 H, 3 HR, 7 R, 6 RBI, 10 BB/10 K, 0 SB/0 CS; August 12-18 18 PA; .333/.444/.333, .778 OPS; 5 H, 0 HR, 1 R, 0 RBI, 3 BB/4 K, 0 SB/0 CS. Against R pitching: 332 PA; .296/.373/.456, .829 OPS; 87 H, 10 HR, 45 R, 37 RBI, 36 BB/47 K, 0 SB/0 CS. 4 starts in last 5 team games; observed start-position codes C; most frequent batting spot(s) 5.

Actual BvP sample through August 18: 4 PA, 4 AB, 1 H, 0 HR, 0 BB, 1 K; games #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Ramirez's completed-only .829 OPS against right-handers and 10 HR in that split raise an extra-base-contact question against Rodriguez's eight season HR allowed. Switch-hitter identity is verified; a particular batting stance or catching assignment tonight is not. **The game must answer:** Confirm Ramirez's participation and actual stance, then track baserunners and contact quality without treating an isolated BvP result as a forecast. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

3. Contact and a recent short-window burst

Conditional confrontation: Bobby Rodriguez #8003 (R) against Elijah Glenn #6330 (bats L). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 3.05 ERA/1.35 WHIP, 8.24 K/9, 2.95 BB/9, 0.41 HR/9; rated repertoire fastball, sinker, circlechange, knucklecurve.

Hitter brings: current-club season 304 PA; .291/.352/.411, .763 OPS; 80 H, 1 HR, 32 R, 32 RBI, 18 BB/45 K, 2 SB/3 CS; challenge 69 PA; .354/.377/.492, .869 OPS; 23 H, 1 HR, 10 R, 9 RBI, 1 BB/11 K, 2 SB/0 CS; August 12-18 23 PA; .565/.565/.783, 1.348 OPS; 13 H, 0 HR, 3 R, 3 RBI, 0 BB/5 K, 0 SB/0 CS. Against R pitching: 250 PA; .301/.360/.434, .794 OPS; 68 H, 1 HR, 29 R, 26 RBI, 16 BB/35 K, 0 SB/0 CS. 4 starts in last 5 team games; observed start-position codes 1B, 2B; most frequent batting spot(s) 3.

Actual BvP sample through August 18: 4 PA, 3 AB, 2 H, 0 HR, 1 BB, 0 K; games #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Glenn's 13 hits in 23 recent PA make contact a useful question, but that burst is far smaller than his 304-PA current-club season. Rodriguez's strikeout record supplies an immediate opposing test; neither number proves the recent batting line will persist. **The game must answer:** Compare actual swings, misses, balls in play and extra-base outcomes with the recent contact discussion; do not credit a good or bad outcome to a guessed hitting plan. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

4. A left-handed bat whose season split needs sample context

Conditional confrontation: Bobby Rodriguez #8003 (R) against Jesus Vasquez #4495 (bats L). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 3.05 ERA/1.35 WHIP, 8.24 K/9, 2.95 BB/9, 0.41 HR/9; rated repertoire fastball, sinker, circlechange, knucklecurve.

Hitter brings: current-club season 500 PA; .283/.341/.375, .717 OPS; 128 H, 3 HR, 53 R, 55 RBI, 32 BB/58 K, 15 SB/11 CS; challenge 93 PA; .294/.348/.318, .665 OPS; 25 H, 0 HR, 10 R, 15 RBI, 7 BB/10 K, 5 SB/0 CS; August 12-18 31 PA; .379/.419/.379, .799 OPS; 11 H, 0 HR, 3 R, 7 RBI, 2 BB/6 K, 1 SB/0 CS. Against R pitching: 401 PA; .298/.359/.403, .763 OPS; 108 H, 3 HR, 49 R, 52 RBI, 28 BB/43 K, 0 SB/0 CS. 5 starts in last 5 team games; observed start-position codes LF, RF; most frequent batting spot(s) 1.

Actual BvP sample through August 18: 4 PA, 4 AB, 0 H, 0 HR, 0 BB, 1 K; games #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Vasquez has .763 OPS in 401 PA against right-handers and .532 in 99 against left-handers. The larger right-handed-pitching sample is relevant only if a right-hander actually starts or enters. His five steals without a caught stealing during the challenge window add a baserunner question after he reaches. **The game must answer:** Confirm the opposing pitcher's hand, observe whether Vasquez reaches, and record any actual attempt to advance; no green light or planned steal is presumed. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

5. The main right-handed power bat against a left-handed run preventer

Conditional confrontation: Nate Higgins #2314 (L) against Mike Rabel #923 (bats R). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 2.05 ERA/0.98 WHIP, 6.28 K/9, 2.64 BB/9, 0.41 HR/9; rated repertoire fastball, changeup, cutter.

Hitter brings: current-club season 487 PA; .266/.344/.431, .775 OPS; 114 H, 16 HR, 45 R, 67 RBI, 38 BB/59 K, 0 SB/7 CS; challenge 84 PA; .240/.313/.373, .687 OPS; 18 H, 2 HR, 8 R, 9 RBI, 3 BB/9 K, 0 SB/1 CS; August 12-18 33 PA; .250/.273/.312, .585 OPS; 8 H, 0 HR, 4 R, 3 RBI, 1 BB/6 K, 0 SB/0 CS. Against L pitching: 98 PA; .241/.357/.410, .767 OPS; 20 H, 3 HR, 7 R, 12 RBI, 11 BB/7 K, 0 SB/0 CS. 5 starts in last 5 team games; observed start-position codes 1B, DH; most frequent batting spot(s) 3.

Actual BvP sample through August 18: 7 PA, 6 AB, 0 H, 0 HR, 0 BB, 0 K; games #658, #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Rabel's .767 OPS in 98 PA against left-handers meets Higgins's 2.05 ERA and nine HR allowed in 197 2/3 innings. The confrontation asks whether Las Vegas can turn a right-handed power option into extra bases against a pitcher who has limited season run scoring. **The game must answer:** Separate actual walks, strikeouts and hard extra-base outcomes from Rabel's raw power rating; observe the rated fastball/changeup/cutter only when the game identifies their use. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

6. Recent production and the leadoff/base-creation question

Conditional confrontation: Nate Higgins #2314 (L) against Mario Smithson #9402 (bats R). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 2.05 ERA/0.98 WHIP, 6.28 K/9, 2.64 BB/9, 0.41 HR/9; rated repertoire fastball, changeup, cutter.

Hitter brings: current-club season 458 PA; .273/.329/.417, .746 OPS; 112 H, 6 HR, 59 R, 56 RBI, 25 BB/75 K, 17 SB/15 CS; challenge 88 PA; .308/.349/.526, .874 OPS; 24 H, 1 HR, 14 R, 13 RBI, 6 BB/19 K, 4 SB/3 CS; August 12-18 29 PA; .538/.552/1.038, 1.590 OPS; 14 H, 1 HR, 8 R, 10 RBI, 2 BB/4 K, 1 SB/1 CS. Against L pitching: 85 PA; .307/.361/.507, .868 OPS; 23 H, 1 HR, 11 R, 10 RBI, 5 BB/13 K, 0 SB/0 CS. 4 starts in last 5 team games; observed start-position codes CF; most frequent batting spot(s) 1/2.

Actual BvP sample through August 18: 8 PA, 6 AB, 1 H, 0 HR, 0 BB, 1 K; games #658, #1044. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Smithson's .868 OPS in 85 PA against left-handers and 1.590 OPS in 29 recent PA are different samples. Higgins's 0.98 season WHIP supplies the opposing traffic question: can the recent producer create a baserunner against this particular left-hander? **The game must answer:** Verify Smithson's actual batting spot, note his on-base opportunities and any subsequent baserunning, and keep the tiny recent sample visible in the commentary. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

7. A left-handed hitter with only 30 PA against lefties

Conditional confrontation: Nate Higgins #2314 (L) against Jon Martinez #5019 (bats L). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 2.05 ERA/0.98 WHIP, 6.28 K/9, 2.64 BB/9, 0.41 HR/9; rated repertoire fastball, changeup, cutter.

Hitter brings: current-club season 405 PA; .285/.380/.435, .815 OPS; 99 H, 8 HR, 48 R, 51 RBI, 50 BB/50 K, 5 SB/4 CS; challenge 64 PA; .222/.344/.407, .751 OPS; 12 H, 2 HR, 7 R, 11 RBI, 9 BB/8 K, 0 SB/0 CS; August 12-18 19 PA; .353/.421/.706, 1.127 OPS; 6 H, 1 HR, 3 R, 7 RBI, 2 BB/4 K, 0 SB/0 CS. Against L pitching: 30 PA; .333/.400/.444, .844 OPS; 9 H, 0 HR, 4 R, 3 RBI, 2 BB/2 K, 0 SB/0 CS. 3 starts in last 5 team games; observed start-position codes LF, RF; most frequent batting spot(s) 3.

Actual BvP sample through August 18: 0 PA, 0 AB, 0 H, 0 HR, 0 BB, 0 K; games none. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Martinez's left-handed identity does not justify assuming he cannot face a left-hander: he has .844 OPS in 30 PA against lefties. That sample is too small for a durable platoon judgment. Higgins's rated changeup/cutter and season walk/strikeout totals supply questions to observe, not a presumed sequence. **The game must answer:** Record whether Martinez starts or appears, the actual pitches and outcomes, and any later substitution; do not turn a 30-PA split into a categorical advantage or disadvantage. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

8. The catcher whose lefty split leaves a real question

Conditional confrontation: Nate Higgins #2314 (L) against Jon Dominguez #1217 (bats L). Both the pitcher assignment and hitter's participation remain unconfirmed.

Pitcher brings: 2.05 ERA/0.98 WHIP, 6.28 K/9, 2.64 BB/9, 0.41 HR/9; rated repertoire fastball, changeup, cutter.

Hitter brings: current-club season 398 PA; .271/.350/.357, .708 OPS; 94 H, 6 HR, 47 R, 40 RBI, 39 BB/60 K, 22 SB/10 CS; challenge 71 PA; .312/.371/.469, .840 OPS; 20 H, 2 HR, 10 R, 10 RBI, 6 BB/7 K, 1 SB/3 CS; August 12-18 25 PA; .409/.480/.636, 1.116 OPS; 9 H, 1 HR, 5 R, 4 RBI, 3 BB/2 K, 1 SB/2 CS. Against L pitching: 66 PA; .207/.277/.207, .484 OPS; 12 H, 0 HR, 5 R, 3 RBI, 6 BB/13 K, 0 SB/0 CS. 3 starts in last 5 team games; observed start-position codes C; most frequent batting spot(s) 5.

Actual BvP sample through August 18: 3 PA, 3 AB, 2 H, 0 HR, 0 BB, 0 K; games #658. This is a descriptive small sample, not proof of an edge.

SUPPORTED BASEBALL INTERPRETATION - where it might turn: Dominguez has .484 OPS in 66 PA against left-handers versus .752 against right-handers. If Higgins starts, that creates an evidence-based catching/lineup question for Matt Petrie, with Pedro Blas a listed catcher option. It does not establish who will catch or why a substitution is made. **The game must answer:** Confirm the catcher and batting order first, then observe Dominguez's encounters or Blas's actual role. Any explanation of the manager's intent requires evidence beyond the split. No approach, intended pitch sequence or guaranteed platoon advantage is attributed to either player.

If Houston instead starts the right-handed Szell, the Las Vegas vs-R columns in the cards replace the Higgins-specific vs-L discussion. If Fernandez starts for Las Vegas, his own higher observed walk rate and different workload replace the Bobby Rodriguez frame. These are conditional scouting changes, not lineup predictions. A 19- or 30-PA recent/split sample is explicitly much smaller than a season.

L. Bullpen workload and options

Club	Aug 12-18 relief IP / ERA / K-BB	Aug 16-18 relief IP / ERA / K-BB	Interpretive limit
Houston Mavericks	5 2/3 / 4.76 / 5-1	1 2/3 / 10.80 / 1-1	workload, not confirmed availability

Derrek Sanders #8713	1981-08-17 / 2 / 1	4	31/4/0	NOT CONFIRMED

Houston’s recent starters left only 1 2/3 relief innings August 16-18. Las Vegas used eight; Souza’s 3 2/3 on August 18 and Hall’s 3 1/3 on August 16 are meaningful workloads to verify with the club before the game. Do not turn elapsed days or low usage into an availability guarantee. Ricky Bautista is an active-snapshot option with zero Houston appearances, not a demonstrated replacement closer.

SUPPORTED BASEBALL INTERPRETATION: if a starter leaves early, Houston has shown greater recent starting-pitcher length while Las Vegas has asked acquired relievers for multiple innings. In a close seventh, eighth or ninth, season and recent SV/HLD/BS credits identify observed finishing work; they do not announce tonight’s plan. An early exit would test options beyond the most familiar save recipient.

M. Managerial decisions to watch

Houston field manager **Carlos Sanchez #238** and Las Vegas field manager **Matt Petrie #218** are the assigned managers in the authoritative staff snapshot. Both conferences have the DH enabled. No pitcher-batting sacrifice, pitcher pinch-hit decision or National League-style double switch is invented.

Observed challenge outcome / event	Houston	Las Vegas
Official sacrifice hits (SH)	9	12
Official SB / CS	12/6	19/13
pinch-hitting entry	7	13
pinch-running entry	0	0
defensive-substitution entry	0	0

Substitution counts above are literal, participant-attributed type-2 log entries matched to game-specific player/team appearances. They are a bounded observable category, not a complete tactical identity. Non-matching wording and ambiguous attribution are not silently guessed. 0 candidate entries had ambiguous game-specific club attribution and were excluded. Sacrifice hits are outcomes, not a count of every bunt call or attempt. SB+CS is not a count of all managerial green lights.

- HOU example, 1981-08-12, game #1375, line 369: Pinch Hitting: RHB Albert Chavez. This is a logged action, not a quotation from an interview.
- HOU example, 1981-08-16, game #1413, line 371: Pinch Hitting: LHB Juan Cid. This is a logged action, not a quotation from an interview.
- HOU example, 1981-08-17, game #1426, line 381: Pinch Hitting: LHB Isaiah Feaster. This is a logged action, not a quotation from an interview.
- LV example, 1981-08-15, game #1403, line 343: Pinch Hitting: RHB Chris Dye. This is a logged action, not a quotation from an interview.
- LV example, 1981-08-17, game #1426, line 354: Pinch Hitting: RHB Nelson Narvaez. This is a logged action, not a quotation from an interview.
- LV example, 1981-08-17, game #1426, line 399: Pinch Hitting: LHB Jon Dominguez. This is a logged action, not a quotation from an interview.

Practical decisions: whether to leave a possible starter in when walks create traffic; whether to ask a recently extended reliever for more work; how Eddie Rodriguez's status changes Las Vegas's available bats and defense; whether observed bench hitters fit an actual opposing pitcher's hand; and whether a late baserunner warrants a running substitution. These are questions to watch. Raw manager strategy codes and stale tactical scorecards are not translated into personality or intent.

N. Active-roster and injury status

Snapshot date rule: each club has 26 active flags in the export whose league date is August 19. This is a current pregame-date snapshot, not a date-certified August 18 active-roster register. There is no complete intervening roster-transaction log here proving that every flag was identical at the previous day's close. Obtain the actual game roster before announcing eligibility. Every performance row still uses its historical game-specific club.

Houston Mavericks - current 26 active flags

Player / ID	Listed position / bats / throws	Observed receiving-club role	Active / DL / injured / DTD flags
Mike McQuaid #416	P / R / R	0 GS / 4 pitching G	1/0/0/0
Tony Chavarria #506	P / L / R	0 GS / 50 pitching G	1/0/0/0

Bobby Rodriguez #8003	P / L / R	24 GS / 24 pitching G	1/0/0/0
Oscar Herrera #8695	P / R / R	26 GS / 26 pitching G	1/0/0/0
Derrek Sanders #8713	P / R / R	0 GS / 57 pitching G	1/0/0/0
Charles Crane #9399	RF / R / R	5 starts in last 5 team games; observed start-position codes CF, RF; most frequent batting spot(s) 2/1	1/0/0/0
Mario Smithson #9402	CF / R / R	4 starts in last 5 team games; observed start-position codes CF; most frequent batting spot(s) 1/2	1/0/0/0

Other DL flags in this club snapshot: none. These identify flags, not a dated diagnosis, effective roster transaction or expected return.

Eddie Rodriguez #4522: active=1, DL=0, injured=1, DTD=0. No current dated injury-history row or August injury message was located for him. Raw injury_left=3 is preserved without turning it into a verified clearance date or games missed. His participation and any replacement are required pre-first-pitch updates. Catching options are Jon Dominguez/Pedro Blas for Las Vegas and Alex Ramirez/Danny Morales for Houston, according to listed catcher positions and actual appearance records; neither catcher assignment is announced.

A bench role is described through recent starts and actual appearances, not presumed capability at an unobserved position. HOU/LV promotions, demotions or medical clearance not established by dated records remain UNKNOWN. The current snapshot alone cannot prove the date of a rotation change or a player's past availability.

O. Recent trade acquisitions and actual receiving-club usage

Player / ID	Date / trade-message / source record	Sender → receiver	Receiving-club completed season use	Challenge use / game IDs	Current flags
Jeff Mitchell #2790	1981-07-27 / #19853 / record 610	Tampa Bay Storm → Houston Mavericks	2 G/0 GS, 0-0, 2 1/3 IP, 0.00 ERA, 0.43 WHIP, 2 K/1 BB, 0 HR allowed; 0 SV/0 BS/0 HLD	2 G/0 GS, 0-0, 2 1/3 IP, 0.00 ERA, 0.43 WHIP, 2 K/1 BB, 0 HR allowed; 0 SV/0 BS/0 HLD; #1272, #1389	active 1, DL 0, injured 0

Jerry Wilson #681	1981-07-29 / #19879 / record 618	San Diego Seraphs → Houston Mavericks	3 G/3 GS, 2-1, 24 2/3 IP, 2.55 ERA, 0.81 WHIP, 16 K/4 BB, 2 HR allowed; 0 SV/0 BS/0 HLD	3 G/3 GS, 2-1, 24 2/3 IP, 2.55 ERA, 0.81 WHIP, 16 K/4 BB, 2 HR allowed; 0 SV/0 BS/0 HLD; #1272, #1327, #1438	active 1, DL 0, injured 0
Ricky Bautista #1990	1981-07-31 / #19904 / record 621	Pittsburgh Express → Houston Mavericks	0 G/0 GS, 0-0, 0 IP, n/a ERA, n/a WHIP, 0 K/0 BB, 0 HR allowed; 0 SV/0 BS/0 HLD	0 G/0 GS, 0-0, 0 IP, n/a ERA, n/a WHIP, 0 K/0 BB, 0 HR allowed; 0 SV/0 BS/0 HLD; none	active 1, DL 0, injured 0
Chris Jenkins #6159	1981-07-31 / #19908 / record 623	Minneapolis Blizzard → Houston Mavericks	4 G/4 GS, 0-1, 31 IP, 2.32 ERA, 0.97 WHIP, 19 K/7 BB, 4 HR allowed; 0 SV/0 BS/0 HLD	4 G/4 GS, 0-1, 31 IP, 2.32 ERA, 0.97 WHIP, 19 K/7 BB, 4 HR allowed; 0 SV/0 BS/0 HLD; #1260, #1315, #1375, #1426	active 1, DL 0, injured 0

Houston acquired Jeff Mitchell July 27 (#19853), Kerry Darling July 28 (#19865), Jerry Wilson July 29 (#19879), and Ricky Bautista/Chris Jenkins in separate July 31 trades (#19904/#19908). Las Vegas acquired Nate Souza July 27 (#19854) and Bill Hall July 29 (#19878). Structured side arrays

determine direction; current roster flags do not substitute for transfer dates. The prior verified deadline inventory supplies context; no position-source disagreement is silently repaired.

Observable impact: Darling has four Houston starts, 32 innings and a 2.81 ERA; Wilson three starts, 24 2/3 innings and 2.55, including the August 18 complete game; Jenkins four starts, 31 innings and 2.32. Mitchell has two relief appearances, 2 1/3 scoreless innings. Bautista has no completed Houston appearance through August 18 despite his active flag. Souza has three Las Vegas relief appearances, 7 2/3 scoreless innings; Hall two, 4 2/3 innings and seven earned runs. A different receiving-club contribution is demonstrated for each; trade success, future leverage role and causal wins added are not established.

Bautista's challenge appearance before the trade was for Pittsburgh in #1226, July 29. It is not credited to Houston. The two clubs' post-acquisition records are not used as causal evidence that an individual trade worked. Source-message dates corroborate the transfers, while automated message quotations are excluded.

P. Ballpark characteristics - Gamblers Park only

PARK DATA - direct export	Value / source boundary
Park / home-club linkage	Gamblers Park #17; team #17 is the home club in fixture #1450
City / capacity	Las Vegas, Nevada / 20,900
Mapped LF / CF / RF distances	321 / 413 / 317, fields distances0 / distances3 / distances6
Full seven-position distance vector	321, 346, 400, 413, 380, 334, 317 (source indices 0-6)
Wall-height vector	6, 6, 6, 6, 6, 6, 6 (indices 0-6)
Surface	turf=0, mapped to Grass by the repository ballpark-dimension contract
Configured average factor / vs L / vs R	0.9949 / 0.9852 / 1.0001
Configured HR factor / vs L / vs R	1.0515 / 1.0937 / 1.0287
Configured doubles / triples factors	1.0398 / 1.0843
Game-specific weather / wind / temperature	UNKNOWN - monthly climate arrays and default wind fields are not an August 19 game forecast
Actual attendance / crowd reaction	UNKNOWN - capacity is not attendance; the unplayed attendance field is zero

The repository maps LF/CF/RF indices and grass/artificial codes explicitly in z_abl_dim_ballparks.py. Distance and wall-height units are not explicitly named in parks.csv; retain the configured values and confirm the unit annotation before a feet-labeled graphic. The other four directional indices are retained numerically rather than assigned unverified compass labels. Type and foul-ground numeric codes remain undecoded.

OBSERVED RESULTS: Las Vegas is 38-25 in 63 home games, scoring 260 and allowing 233: 7.83 combined runs per game. Both clubs combined hit 69 HR in those games. Las Vegas's road record is 30-27. These are home-schedule observations; they do not isolate the park from opponents, weather, personnel or scoring conditions.

SUPPORTED BASEBALL INTERPRETATION: the configured HR factors and the observed home scoring provide questions about extra-base contact and handedness, not a guarantee that the park will produce home runs tonight. No actual weather, crowd size or atmospheric scene is manufactured, and Houston Stadium's dimensions are not substituted.

Q. Conference Challenge context and the finale

The conference phase began July 27 after divisional play through July 26. All 239 completed games July 27-August 18 were same-conference, different-division regular-season games. August 19 has 12 scheduled final-day games, six in each conference. This Houston-Las Vegas fixture is one of those finales, not the sole official championship final. "Conference Challenges" and "ABL Advance" are editorial/programming terms; the Showcase selection is the user's production assignment.

Houston Mavericks challenge block	Opponent / location	Result through August 18	Game IDs
Weekday 17 Series	DEN / home	3-0 final	#1215, #1227, #1235
Weekend 17 Series	POR / home	2-1 final	#1248, #1260, #1272
Weekday 18 Series	PIT / home	3-0 final	#1286, #1298, #1306
Weekend 18 Series	NY / road	1-2 final	#1315, #1327, #1339
Weekday 19 Series	SEA / home	3-0 final	#1351, #1363, #1375
Weekend 19 Series	PHI / road	2-1 final	#1389, #1401, #1413
Weekday 20 Series	LV / road	1-1 - finale unplayed	#1426, #1438

Las Vegas Gamblers challenge block	Opponent / location	Result through August 18	Game IDs
Weekday 17 Series	CIN / home	2-1 final	#1205, #1217, #1229

Las Vegas Gamblers challenge block	Opponent / location	Result through August 18	Game IDs
Weekend 17 Series	BOS / road	2-1 final	#1243, #1255, #1267
Weekday 18 Series	STL / home	0-3 final	#1288, #1300, #1307
Weekend 18 Series	PIT / home	0-3 final	#1319, #1331, #1343
Weekday 19 Series	NY / road	2-1 final	#1359, #1371, #1379
Weekend 19 Series	NAS / road	3-0 final	#1391, #1403, #1415
Weekday 20 Series	HOU / home	1-1 - finale unplayed	#1426, #1438

ABC club	Challenge W-L / RF-RA	Aug 10-18 W-L	August 18 record
Denver Rocketeers	11-9 / 86-93	6-2	66-54
Cincinnati Cougars	10-10 / 84-94	5-3	62-58
New York Aces	8-12 / 64-65	2-6	53-67
Nashville Blues	6-14 / 72-103	1-7	58-62
Las Vegas Gamblers	10-10 / 100-87	6-2	68-52
Portland Lumberjacks	11-9 / 74-77	4-4	49-71
St. Louis Stallions	11-9 / 88-62	5-3	57-62
Boston Patriots	9-11 / 93-99	3-5	61-59
Pittsburgh Express	10-10 / 80-94	5-3	53-67
Philadelphia Fury	9-11 / 73-91	4-4	56-64
Houston Mavericks	15-5 / 97-62	6-2	72-47
Seattle Comets	10-10 / 82-66	1-7	64-56

Production numbering for Weekday 20 is a verified calendar continuation of the established Weekday 17 anchor; no OOTP series-ID field encodes the label. WD20-HOU-LV is a package reference key. No additional selection rationale or earlier reverse-venue designation was located. The game can

illustrate two division leaders' run creation, rebuilt pitching and depth without presuming what the result will prove.

R. Relevant 1972-1980 history and Ernie's ten-season perspective

Season	Houston W-L / division place / qualification / title	Las Vegas W-L / division place / qualification / title
1972	67-95 / 4 / no tournament / no title	90-72 / 2 / tournament / no title
1973	79-83 / 3 / no tournament / no title	70-92 / 3 / no tournament / no title
1974	80-83 / 2 / no tournament / no title	73-89 / 4 / no tournament / no title
1975	92-70 / 1 / tournament / no title	77-85 / 3 / no tournament / no title
1976	95-67 / 1 / tournament / no title	58-104 / 4 / no tournament / no title
1977	88-74 / 2 / tournament / no title	73-89 / 2 / no tournament / no title
1978	89-73 / 1 / tournament / no title	66-96 / 3 / no tournament / no title
1979	96-66 / 1 / tournament / champion	82-80 / 2 / no tournament / no title
1980	92-70 / 2 / tournament / no title	89-73 / 1 / tournament / no title

Houston qualified in six consecutive seasons, 1975-80, and won the 1979 championship. Its division-winning seasons in those records were 1975, 1976, 1978 and 1979; its 1980 berth was a wild card. Las Vegas qualified in 1972 and 1980, won the West in 1980, and had no championship through 1980. Houston beat Las Vegas in the 1980 conference final and then lost the championship to Detroit. Calling Houston the defending ABC postseason champion is supported by that 1980 conference-final record; calling it the defending ABL champion would be wrong.

WHAT ERNIE BEWELL WOULD NOTICE

- Two present division leaders have an actual previous conference-final meeting. The significance comes from records and October results, not invented resentment or personal memory.
- Houston has earned the strongest challenge record while remaking much of its pitching staff. It still has to translate individual run prevention and lineup depth into the next game, not a guaranteed title.
- Las Vegas's 10-10 total conceals a 6-2 closing stretch after temporarily losing the West lead. A veteran observer should ask what changed on the field rather than equating first place with uninterrupted dominance.

- Long starts can change the practical choices available late, but low bullpen usage does not prove every pitcher is healthy, eligible or ready. The Souza workload and Eddie Rodriguez flag keep the human/roster questions concrete.
- The outcome can alter margins involving Cincinnati, Denver and Seattle. The game matters even though neither division lead can vanish through the ordinary single-game outcomes quantified above.

Current personnel are supporting context: Houston’s Larry Bell and Las Vegas’s Roberto Choto are the assigned GMs; Xavier Ferguson and Terry Vinson are owners. The prior owner extract labels Vinson’s priority “Winning,” but it is undated supplemental context, not evidence that he ordered Souza or Hall’s acquisition. GM numeric tendency scales remain undecoded. No current staff member is assigned credit for a historical title without tenure evidence.

S. Five big pregame questions

1. Who will actually take the first turn, and can the starter limit traffic?

Why it matters / verified evidence: Higgins and Bobby Rodriguez are rested, slot-supported POSSIBLE starters; their season WHIPs are 0.98 and 1.35, but the assignments are unconfirmed. **Players:** Higgins #2314, Bobby Rodriguez #8003; alternatives Szell #2383 and Fernandez #6192. **Watch:** Confirm the starters, then observe walks, first trips through the order and actual repertoire rather than projecting a rotation.

2. Can Las Vegas carry its recent offense into this test?

Why it matters / verified evidence: .818 OPS and 45 runs in seven games August 12-18 differ from the season .705 OPS and full-challenge .757. **Players:** Mario Smithson #9402, Jon Martinez #5019, Mike Rabel #923, catcher candidates #1217/#7296. **Watch:** Which hitters are in the order, how baserunners are created, and whether the small recent samples continue against the actual pitcher.

3. What will Houston’s left-handed and switch-hitting bats do against the confirmed Las Vegas pitcher?

Why it matters / verified evidence: Ufena .906 OPS versus R pitching in 364 club PA; Alex Ramirez .829 in 332. These are measured splits, not guarantees. **Players:** Warren Ufena #5828, Alex Ramirez #4753, Elijah Glenn #6330, Jesus Vasquez #4495. **Watch:** Timing, contact, strike-zone decisions and extra-base chances; avoid declaring a BvP edge from a handful of PA.

4. How much of the game will the starters leave to the bullpen?

Why it matters / verified evidence: Houston used 1 2/3 relief innings August 16-18; Las Vegas eight. Souza threw 3 2/3 August 18; Hall 3 1/3 August 16. **Players:** Actual starters; Chavarria #506, Tapia #4705, Mitchell #2790, Sanders #8713, Souza #1688, Hall #535. **Watch:** First relief choice, entry inning and score, multiple-inning requests and the actual roster. Do not assume fatigue or clearance.

5. Which part of the reconstructed rosters will this finale test?

Why it matters / verified evidence: Houston’s recent starters Darling/Jenkins/Wilson have supplied real innings; Bautista has no Houston appearance. Eddie Rodriguez is active but injury-flagged. **Players:** Darling #679, Jenkins #6159, Wilson #681, Bautista #1990, Eddie Rodriguez #4522 and any announced replacement. **Watch:** The eligible roster, bench use, health clarification, and any acquired player who actually enters. Evaluate contributions after they occur, not by transfer reputation.

T. Verified numbers and factual details - ON-AIR FACT BOARD

Safe commentary / graphic fact	Source key / caution
Houston at Las Vegas, Wednesday August 19, 7:05 p.m., Gamblers Park	games #1450; teams #23/#17; park #17; time zone unencoded
Series tied 1-1; finale unplayed	#1426 LV 4-3; #1438 HOU 7-3; #1450 no result
Houston 72-47; Las Vegas 68-52	completed regular-season reconstruction through August 18
Houston Central lead 10.5; Las Vegas West lead 2 over Denver	ABC standings, no clinch claim
Houston 15-5 in challenges; Las Vegas 10-10	July 27-August 18, 20 completed games each
Both clubs 6-2 August 10-18	short-window records, not season records
Houston leads 1981 head-to-head 8-3	11 completed meetings, no August 19 outcome
Houston won their 1980 CCS 4-1	OOTP message #18692; no revenge claim
Houston 5 2/3 relief IP vs LV 13 1/3 over August 12-18	workload, not availability
Gamblers Park listed capacity 20,900	capacity, not expected attendance
No confirmed starter or lineup in admitted current sources	zero fixture starter IDs; rotation slots are not assignments
Eddie Rodriguez active and injury-flagged	eligibility/participation must be confirmed

Figures are phrased for factual use, not as a finished narration. If a pregame update changes a roster, starter or game status, amend the fact board from a dated source before use.

U. Potential opening approaches - concepts, not article prose

- Start with two division leaders and a tied series, then show why Houston’s 15-5 run and Las Vegas’s late recovery are different kinds of evidence.
- Start with the potential Higgins-Rodriguez contest only after assignments are confirmed; use the contrasting WHIPs, strikeouts and actual repertoires to introduce the hitters’ questions.
- Start with the innings the bullpens did not have to pitch, then examine how the recent acquisitions expanded or complicated the managers’ real options.

- Start with the verified 1980 conference final, then move immediately to current records and what the clubs have become. No invented memory or emotional motive is needed.
- Start with Cincinnati at Denver as the parallel scoreboard linking these two division leaders' margins, while keeping the baseball at Gamblers Park central.

V. Pregame article and broadcast discovery board

1. Two leaders, one unfinished test

Central question: What does the third game reveal about two differently constructed leaders? **Supporting facts:** HOU 15-5/+35 in challenges; LV 10-10/+13, then 6-2 closing. **People:** Higgins, Rodriguez, Ufena, Smithson; Sanchez and Petrie. **Possible opening concept:** Frame the tied series and different paths to first. **Caution:** Do not call it a berth decider or a special Challenge title.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

2. The possible pitching discussion begins before a pitch is named

Central question: Can a rested candidate carry actual season strengths into this lineup? **Supporting facts:** Higgins 2.05 ERA/.98 WHIP; Rodriguez 3.05/1.35, 162 K; both last started August 14. **People:** Higgins #2314, Rodriguez #8003; Szell and Fernandez as alternatives. **Possible opening concept:** Explain why these candidates deserve preparation, then wait for confirmation. **Caution:** Do not announce an unconfirmed starter, mph or pitch sequence.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

3. A staff rebuilt in public, tested in innings

Central question: Which Houston additions have supplied real work? **Supporting facts:** Darling 32 IP; Jenkins 31; Wilson 24 2/3; Mitchell 2 1/3; Bautista zero Houston appearances. **People:** GM Larry Bell; actual pitchers, manager Sanchez. **Possible opening concept:** Separate the roster transaction from its on-field test. **Caution:** Do not credit team wins to a trade or invent Bautista's absence reason.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

4. The bullpen begins with the starter's length

Central question: What options remain if tonight needs more relief? **Supporting facts:** Aug 16-18 relief HOU 1 2/3, LV eight; Souza 3 2/3 August 18. **People:** Chavarria, Tapia, Mitchell; Sanders, Souza, Hall; both managers. **Possible opening concept:** Use observed workload to explain a decision worth watching. **Caution:** No declaration of fatigue, fresh status, availability or a preset closer order.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

5. Las Vegas's late offense needs an opponent-specific test

Central question: Can the recent production survive the actual pitching assignment? **Supporting facts:** LV .818 OPS Aug 12-18; Smithson 1.590 in 29 PA; Martinez 1.127 in 19. **People:** Smithson, Martinez, Rabel; possible Higgins/Szell. **Possible opening concept:** Make the sample size part of the question. **Caution:** No hot-streak destiny or guaranteed platoon advantage.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

6. A catcher and a left-handed run producer face the repertoire question

Central question: Where will Houston create its chances? **Supporting facts:** Ufena .906 OPS vs R; Alex Ramirez .829 vs R, with completed-PA source filtering. **People:** Ufena #5828, Ramirez #4753; Rodriguez/Fernandez. **Possible opening concept:** Connect patient baserunners and contact to the actual pitcher's walks and strikeouts. **Caution:** Do not claim an intended hitting philosophy or an advantage from tiny BvP samples.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

7. A real October past, a different August present

Central question: What does the 1980 CCS add to this meeting? **Supporting facts:** Houston eliminated Las Vegas 4-1; both lead divisions now. **People:** Franchise context; current personnel tenure is not presumed. **Possible opening concept:** Use the actual prior series rather than a generic rivalry label. **Caution:** No revenge, bad blood, clubhouse memory or invented quotation.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

8. The other ABC game changes the meaning of a win

Central question: How does Cincinnati at Denver alter both leaders' margins? **Supporting facts:** Four conditional outcomes give HOU Central lead 9.5-11.5 and LV West lead 1-3. **People:** Cincinnati and Denver; Houston and Las Vegas. **Possible opening concept:** Show the two clocks of a pennant race: own baseball and verified other results. **Caution:** No fabricated scoreboard result, clinch, final bracket or odds.

Historical / stakes connection: Houston's 1979 title and 1980 conference title, Las Vegas's 1980 division title and conference-final defeat, and the current margins in Section F supply context. They do not determine this result. **Classification:** SUPPORTED BASEBALL INTERPRETATION; numerical evidence is computed from the stated cutoff.

W. Unknowns and required updates

PRE-FIRST-PITCH UPDATE CHECKLIST

[ ] Obtain a dated/game-keyed confirmation of both starters; revise conditional scouting if the actual pair differs.

[ ] Obtain both official batting orders, listed defensive positions and DH assignments.

[ ] Confirm the game-eligible active rosters and any transaction since the captured state; do not relabel the current snapshot as an August 18 registry.

[ ] Confirm Eddie Rodriguez's injury/eligibility status and any announced replacement; verify catcher assignments.

[ ] Confirm availability of Souza, Hall, Sanders, Chavarria, Tapia, Mitchell and other potential relievers directly from dated team/game evidence; workload alone does not decide it.

[ ] Confirm game time/time zone and any postponement, venue or status change against game #1450.

[ ] Obtain actual in-game weather/wind/temperature and attendance if displayed; monthly park climate and capacity are not those observations.

[ ] Confirm distance units before a feet-labeled park graphic.

[ ] Keep every August 19 result out of this pregame desk; once play begins, capture a new dated record rather than silently turning this file into a recap.

Other limits: dated production-selection rationale is not available; Weekday 20 numbering is a documented calendar continuation; owner traits are undated context; GM numerical scales and raw velocity codes remain undecoded; a small BvP or platoon sample is descriptive only; a roster flag cannot prove historical availability; historical date-bounded archive totals are not a fully certified all-time regular-season series record.

WHAT THE POSTGAME DESK MUST CAPTURE

[ ] Final score, completed status, date, innings and game ID.

[ ] Official winning pitcher, losing pitcher and save, if awarded.

[ ] Both starting pitchers' actual lines, pitch counts, exits and run responsibility.

[ ] Complete scoring sequence, ties and lead changes, keyed to innings and source events.

[ ] Decisive at-bats and their actual situation, with player IDs and game-log lines.

[ ] Critical pitching decisions and actual bullpen deployment, including entry score/inning, inherited runners, outs and workload.

[ ] Noteworthy fielding, errors and baserunning, with verified event sequence; do not infer a walk-off from the score.

[ ] Manager substitutions, pinch hitters/runners, defensive changes, bunts and actual DH use.

[ ] Actual contributions or non-use of acquired players; distinguish appearance from causation.

[ ] New standings after all relevant completed games, including Cincinnati-Denver and Pittsburgh-Seattle; preserve partial-day status if needed.

[ ] Any statistical milestone against independently verified prior totals.

[ ] Answers, qualifications or unresolved points for the five pregame questions, then integrate the result into the Conference Challenges narrative.

This is an unpopulated capture checklist. No target-game events or outcome have been inserted.

X. Source traceability and calculation contract

C:\sbv_repo\abl_csv_repo\csv\ootp_csv\players_injury_history.csv	14bb88eb81deb388c61f6cda38871ef59e87ac696d4c4733b904d89af312f30c

Calculation definitions: AVG=H/AB; OBP=(H+BB+HBP)/(AB+BB+HBP+SF); SLG=(H+2B+2×3B+3×HR)/AB; ERA=ER×27/outs; WHIP=(H allowed+BB)×3/outs. IP uses outs divided into thirds. K/9, BB/9 and HR/9 use 27/outs. Zero-workload ERA/WHIP are n/a. Receiving-club statistics use the actual club in each dated appearance. GB=(leader W-club W+club L-leader L)/2. Rest columns distinguish elapsed days from full intervening dates; neither is a medical assessment.

- C:\sbv_repo\abl_csv_repo\csv\out\almanac\1979\games_1979_league200.csv - secondary archive, synthetic keys and explicit bounded historical use; 1980 postseason outcome corroborated by primary message #18692.
- C:\sbv_repo\abl_csv_repo\csv\out\almanac\1980\games_1980_league200.csv - secondary archive, synthetic keys and explicit bounded historical use; 1980 postseason outcome corroborated by primary message #18692.
- Production assignment: C:\Users\earld\.codex\attachments\27e59312-c965-47cc-b5e9-413f95d78b91\Pasted text.txt - current Showrunner assignment, requested orientation and Showcase designation, not a game-results source.
- Rejected current-game HTML: live news/html/box_scores/game_box_1450.html (1980 Pittsburgh-Seattle title), and news/html/leagues/league_200_scores.html (August 1, 1981). Rejected current-performance shortcuts: undated BvP totals, cumulative rows contaminated by incomplete #1113, old arsenal/batter prep reports, old manager tendencies and stale power rankings. Current raw named ratings are used only within their declared scope.

Y. Final independent verification certificate

Independent full verification cycle **4**: **PASS**; **39 checks passed**, **0 unresolved failures**.

- 1-3. Native fixture #1450, Houston visitor #23, Las Vegas home #17, August 19 at 1905
- 4. Native park linkage and three-game August 17-19 series; production label distinct
- 5. Cutoff reconciles 1,438 completed games, all 12 August 18 games and league date August 19
- 6/28. No August 19 results admitted; all 12 scheduled games unplayed, target starter/result fields zero
- 7. All 24 official team W-L-G records reconcile with completed game decisions
- 8. All division GB and ABC wild-card ordering recomputed independently
- 8b. Coupled Cincinnati-Denver/Houston-Las Vegas four-case arithmetic
- 9-10. Eleven completed head-to-head games, eight Houston wins; no later regular-season meeting
- 9b. Inning-by-inning scores match all 1,438 final results
- 15/19. Independently rebuilt all 416 player statistical views with historical club attribution
- 15b. Every team window, starter/relief aggregation and rate formula rechecked
- 16. Bullpen seven-/three-calendar-day outs, Souza and Hall specific workloads
- 14a. PA-result decoding reconciles every completed player-game batting line
- 14b. Every current-club vs-L/vs-R split rebuilt from completed PA and actual opposing pitcher
- 14c. Incomplete #1113 excluded; Alex Ramirez completed-only 401 PA and 351 AB
- 14d. All eight conditional batter-versus-pitcher samples independently matched to desk
- 11. Starter uncertainty preserved; possible candidates follow actual dated starts without announcement
- 12. All 52 active-snapshot player identities, native IDs, hands and cards matched
- 13. Every active pitcher repertoire and raw pitch rating matches named export fields
- 17. Two 26-player current snapshots; Eddie active/injured distinction retained
- 18-19. Seven acquisition dates, receiving clubs and message IDs independently corroborated
- 20. Current manager, GM and owner assignments matched to staff/coach IDs
- 21. Gamblers Park capacity, seven dimensions/walls, surface and all cited factors
- 22a. Historical qualification, 1979 Houston title and primary 1980 CCS winner/score/box

- 22b. Companion October 20 historical message is correctly cited as #18673
- 23. All 239 challenge games same conference/different division; August 20 returns division play
- 24. One wild card/three division winners and 1981 same-division DCS protection follow declared rules authority
- 15c. All 208 rendered player-card statistical rows match reconciled calculations
- Document completeness: all A-Y sections, five questions, eight confrontations, fact board and empty checklists
- Markdown formatting: every contiguous table retains the correct column count; UTF-8 intact
- 25-27. Editorial scope reviewed: no invented interview, reaction, tactical intention or target outcome
- 9c/25-27. Every admitted club game-log block matches schedule participants and final score
- Managerial usage: independent literal substitution counts and exclusion total match desk
- 14e. Completed PA keys exactly match completed major-league batting rows; no orphan events
- 9d. Las Vegas temporary loss of West lead and August 11 recovery independently reconstructed
- 22c. Every 1972-1980 W-L, division place, qualification and title table cell matches primary history
- Traceability: every cited absolute repository source path exists
- Source integrity: all 72 authoritative CSV SHA-256 hashes unchanged
- Protected reports: conference packet, deadline packet and supplement unchanged

Verification distinctions retained: official starters and lineups remain unknown; active/injury flags are the current pregame-date snapshot, not a reconstructed August 18 roster; raw arsenal/velocity/strategy scales are not decoded; incomplete #1113 statistics and mismatched historical HTML are excluded; old historical archive keys are not native game IDs. No current-game result or imagined scene is supplied.

BASEBALL OBSERVER SHOWCASE STATUS: PREGAME DESK READY

FINAL VERDICT: VERIFIED FOR ERNIE BEWELL PRE-GAME USE
